Public comment: Charlie L. said he is satisfied with the P.C.'s continuing work on the data center issue.

Old Business:

1) the planning commission continues to learn about data center zoning. Martha and Gerry will be attending a seminar on "Navigating the Minefield of Data Centers" being put on by the Michigan Township Participating Plan. This will be an all-day learning event in Marquette in November.

2) on the advice of the KCF grant staff we will be working on one or two grant proposals for the spring cycle. Feel free to input ideas and helpful feedback. One proposal will be to update/upgrade the basketball court next to the ice rink, with maybe pickleball added. The second proposal is undecided as of now.

New Business:

1) Gerry H. and Heather P. will be working on obtaining a risk control grant from the Decker Agency which is available in February. These funds will likely be used for firefighter equipment. Good grant writing practice!
